Advanced also listed a firm, Focus Electrical Services to assist with the installation of the noted equipment, specifically the electrical portion. Based on the documentation received from Advanced, it is determined that more than the required 50% of the work will be completed by the prime contractor. After reviewing the submitted documentation it is determined that Advanced has satisfied the requirements of the M/WBE Program as set forth in the solicitation documents.

In summary, Advanced has demonstrated efforts to comply with the requirements of the M/WBE Program and as such may be further considered for award.

Factory Direct Food Service Equipment (Factory)

Factory submitted documentation which indicated that the firm was currently certified as a SWaM business. Further perusal of the submitted bid package verified SWaM certification with DMBE under #006947 as a woman small firm. Given that the referenced business is currently certified through DMBE, submission of additional Good Faith Efforts was not required; 100% participation credit will be counted as Factory intends to utilize the services of Cookline 360, which is also a SWaM certified firm as a woman small business under #703988. As such, Factory has satisfied the M/WBE requirement and deemed as responsive and eligible to be considered for award of award of the contract.
